

X-CAV 3 Kit-bash Instructions and Data Cards

*Note – Hex Bases are available from Reaper in a four pack for \$4.99 (SKU 74004)
Estimated Costs to Build do not include the cost of a hex base.*

The Boxer

By Saint of Sinners

Approximate Cost to Build: \$17.26

Required Parts

- 1x Katana chassis (7042b)
- 1x Bishop legs (7049a)
- 1x Mantis sprue (7078c)
- 1x Starhawk 6 sprue (7086c)

Instructions

- 1- Cut the missile packs off of the Mantis arms and file the shoulders smooth. Use green stuff where needed for smoothing.
- 2- Check to ensure the male pegs on the Mantis arms fit the holes on the Katana torso. File the pegs as needed to make them fit. **DO NOT glue them together yet!**
- 3- Cut the Mantis arms between the shoulder and guns.
- 4- Cut the Starhawk arms between the shoulder and guns.
- 5- Pin the Starhawk guns to the Mantis shoulders.
- 6- Assemble model as usual.

The Slayer

By Vil-hatarn

Approximate Cost to Build: \$12.06

Required Parts

- 1x Thug chassis (7021b)
- 1x Sultan legs (7052a)
- 1x Revenant sprue (7082c)
- 1x Outlaw turret (7080b)

Instructions

- 1- Cut the Outlaw missile packs off of the turret mount.
- 2- Attach missile packs to outside of Revenant shoulders.
- 3- Assemble model as usual.

The Terror

By Jeff L.

Approximate Cost to Build: \$16.95

Required Parts

- 1x Revenant chassis (7082b)
- 1x Emperor legs (7108a*)
- 1x Thunderbird left gun (7092d)
- 1x Thunderbird right gun (7092e)
- 1x Revenant missile pack (7082d)

Instructions

- 1- File parts as needed to ensure they fit together correctly.
- 2- Assemble model as usual.

* As of the time of this writing, parts for the Emperor are not available in Reaper's Bone Yard. We have estimated its cost at \$4.99. If you wish to build a Terror and the legs are still not available separately, please email questions@reapermini.com to inquire about purchasing them.
